

DevOps Engineer

Please note that US citizenship or Green Card is required. Relocation to Connecticut is preferred but not required.

frevvo, Inc. provides point and click, Cloud-based software to design any form and automate any workflow in days. At frevvo, you'll work with an elite team of veteran engineers in a highly dynamic, flexible work environment that values work/life balance. Being a small company, we strive to be highly productive without a lot of red tape and hierarchy.

Role:

You'll be responsible for managing our AWS-based cloud infrastructure which we use to host our platform as well as services used internally within the company. Key skills are AWS, Docker and UNIX/LINUX administration. In addition to managing and streamlining our day to day operations, this position would lead efforts to design and implement our next generation cloud infrastructure.

Responsibilities:

- Administration of all public cloud infrastructure globally including design, implementation, administration and support with an initial focus on the US;
- Support ongoing needs assessments from a global infrastructure perspective;
- Provide ongoing operational monitoring in order to ensure optimal server usage, performance, reliability, scalability and security;
- Close collaboration with build engineers, developers and testers to ensure needs are met;
- Close collaboration with customer support to ensure responsiveness to customer issues and concerns;
- Security scans, penetration testing of our public cloud infrastructure;
- Manage internal I.T. needs such as Confluence/JIRA, certificates etc.

Requirements

- 5+ years in Software Engineering, Linux administration or related work
- BS in Computer Science or related field
- Experience with AWS (VPC, EC2, S3, RDS, CloudWatch) with bonus points for related certifications.
- Experience with Jenkins or other continuous integration tools.
- Experience with Docker with bonus points for Kubernetes or Cloud Foundry

- Experience with Git, Apache, Linux Operating Systems, SQL

Benefits and Perks

- Competitive Salary
- Bonus Plan
- Stock Options
- Medical, Dental and Vision for you and your family
- 3 week PTO for new hires
- Retirement Plan with company match

Other Information

At this time we are unable to sponsor H1-B visas.
